MISCELLANEOUS.

That's a common expres-

sion and has a world of

meaning. How much suf-

fering is summed up in it.

The singular thing about

it is, that pain in the back

is occasioned by so many

things. May be caused by

kidney disease, liver com-

plaint, consumption, cold,

rheumatism, dyspepsia, over-

work, nervous debility, &c.

Whatever the cause, don't

neglect it. Something is

wrong and needs prompt

attention. No medicine has

yet · been discovered that

will so quickly and surely

cure such diseases as

Brown's Iron Bitters, and

it does this by commencing

at the foundation, and mak-

ing the blood pure and rich.

Wm. P. Marshall, of Logans-

port, Indiana, writes: "My wife

has for many years been trou-

bled from pain in her back

and general debility incident

to her sex. She has taken one

bottle of Brown's Iron Ditters,

and I can truthfully say that

she has been so much benefited

that she pronounces it the

only remedy of many medi-

Leading physicians and clergymen use and recom-

mend Brown's Iron Bit-

TERS. It has cured others

suffering as you are and it

will cure you.

cines she has tried."

CALIFORNIA. Meeting of the Democratic State Central

Committee.

San Francisco, July 11th.—The Democratic State Central Committee held a session this afternoon, for the purpose of considering the course of Railroad Commissioners Humphreys and Carpenter, and the utility of asking the Governor to convene the Legislature in extra session to impeach them, provided they do not make greater reductions in freights and fares. Twenty four of the thirty seven members of the committee were present. John H. Wise presided over the meeting, which was executive. The matter of passing resolutions censuring Railroad Commissioners Carpenter and Humphreys for alleged derelletion of duty in effice, and calling on Governor Stoneman to convene the Legislature to remove them from office, was taken up. Many members expressed themselves as opposed to taking any such action without first instituting an investigation into what the Railroad Commission had done, and ascertaining if there was any cause for adopting resolutions likely to antagouize the conservative men in the party. The fact that the Commissioners were nominated and elected by the Democratic party was given as a powerful reason why the committee hould not withould its protection. SORE THROAT. QUINSY, SWELLINGS SPRAINS. Soreness, Cuts, Bruises, FROSTBITES, BURNS, SCALDS, And all other bodily aches FIFTY CENTS A BOTTLE. Sold by all Druggists and Dealers. Directions in 1 The Charles A. conservative men in the party. The fact that the Commissioners were nominated and elected by the Democratic party was given as a powerful reason why the committee hould not withhold its protection from them until some overt act was proved beyond a reasonable doubt. A long debate took place on these points, result ng in a conservative policy being adopted. A committee of five was appointed to wait on Commissioners Carpenter and Humphreys, and request them to appear before the committee with explanations. The committee adjourned until eight o'clock in the evening, when it reconvened, and the question of holding an open air meeting was defeated by a vote of 21 to 15. Commissioner Humphreys appeared, explaining his action relative to the schedule of fares already adopted, stating that he had been actuated by a desire to thoroughly master the railroad problem, and hat agreed to the reduction made because, in his opinion, it should be made. It was true that he was not disposed to make a sweeping reduction without understanding the rights of the poople on one hand and the railroad on the other. Carpenter followed in the saue vein, and in turn was followed by Foote. When the statements of the Commissioners had been made, the committee passed a resolution executive the formed in the same of sioners had been made, the committee passed a resolution censuring the Commission for not acting in accordance with pledges taken before the San Jose Convention. A vote was then taken on the question of holding a State Convention for the purpose of giving voice to the sentiments of the Democracy, which was lost. A committee was appointed, consisting of Ball, Carroll, Fox, Baldwin and Morehouse, to investigate the effairs of the Commission, and report on the third Wednesday in August, to which time the meeting adjourned.

A Chinaman Converted into Pulp in a Paper Mill. STOCKTON, July 11th.—While endeavoring to dizentangle a net, caught in the shaft of a rag-cutting machine in the paper mill to-day, a Chinaman named Ko Kuhn Chaw was wound around the shaft and literally ground to pieces The shaft made three hundred revolutions per minute, and it was about two minutes before the machinery could be stonged.

with the water but a little higher, is diverted through numerous breaks in the westerly banks above this city and below Knight's Landing. That these reduce the carrying capacity of the river, and propora fact known to all well-informed valley residents. That in this fact there is a menace to the navigability of the river, worthy of the earnest attention of the

The Hebrew Convention. CINCINNATI, July 11th.—The Union of American Hebrew Congregations transacted but little busi ness to-day, on account of the deep interest in the ceremony of the consecration of four Rabbis—gradu ates of the Hebrew Union College—this being the It is firmly held by many citizens familiar

Disastrous Ballroad Collision. THUSVILLE (Pa.), July 11th.—A Herald special ws: An excursion train from this city, containing with a freight train on the Buffalo and Southwestern Railroad at 2 a. M., two miles from Jamestown, instantly killing George Gates, conductor, M. D. Colby, brakeman of the freight train, and fatally injuring W. J. Innis, another brakeman. No one was hurt on the excursion train. The engineers and firemen of both trains were saved by jumping. Both enginee were smashed, and many freight cars. The force of the collision drove the excursion coaches back twenty five feet, but they kept on the track. Colby's limbs were crushed to a felly. Gates, the conductor, was roasted in the ruins. The cause of the accident was a failure of the engineer of the freight train to obey orders.

eight train to obey orders. Miss Slocum's Assallant. White Plains (N. Y.), July 11th.—Detectives are elieved to have discovered the hiding-place of Miss ocum's assailant, and taken measures to effect his the Riggiury mountains, Coanecticut, near the sw York border. H. L. Buckley. On the same evening of the assault Rudolph was arrested, taken to the station-house and a charge of attempt to commit murder entered on the slate opposite his name. The wounded man on the next day refused to swear to the charge, and with much refustance swore to a charge of battery. The defendant came into Court on Monday and pleaded guilty to the charge. The Court asked that the prosecuting witness be placed on the stand, and heard his state. nent. The defense offered no rebutting tes-

The Court was inclined to think that, from reports that had reached his ear from officers of the Court, the matter was entirely too serious a one to be dismissed so trivially, and ordered that Rudelph be held until Wednesday, when the matter would be thor. Wednesday, when the matter would be thoroughly investigated and disposed of. In the course of his remarks the Court said: "To call this case a battery is a misnomer. To recognize it as such in a Court of justice would be a fare. The unimpeached testi-mony of the prosecuting witness shows that, almost without provocation, the defendant amost without provocation, the defendant made a nurderous assault upon him with a deadly weapon, stabbing his person in a savage manner. If the result had been fatal the crime would be nothing less than a cold-blooded unreder. The practice that seems to prevail of late, of whipping out a pistol or knife upon the slightest provocation, is one to be condemned in emphatic terms. It is brutal, community off-suded by such outrages has a right to expect, when the proofs are conclusive, that the law, without meroy, will be swift and certain in its penalties. The law which prehibits the carrying of concealed which the profession of the office, those having a large quantity of mail to deposit should have it at the office see arly as possible. Unless that the tilegally found guilty of the said crime without and information filed by him, and has been tiled and information filed by him, and has been tiled and information filed by him, and has been tiled and information filed by him, and has been tiled and information filed by him, and has been tiled and information filed by him, and has been tiled and information filed by him, and has been tiled and information filed by him, and has been tiled and information filed by him, and has been tiled and information filed by him, and has been tiled and information filed by him, and has been tiled and information filed by him, and has been tiled and information filed by him, and has been tiled and information filed by him, and has been tiled and the office of mail to deposit should have to social gatherings at the different residences of the tart the office searly as possible. Unless to the residence of the large quantity of mail to deposit should have that the office of the large quantity of mail to deposit should have that the office on the different residences of the tier at the office of mail to deposit should have that the office of mail to deposit should have that the office of mail to deposit should have that the office of mail to deposit should have that the office of mail t made a murderous assault upon him with a deadly weapon, stabbing his person in a savage manuer. If the result had been fatal the crime would be nothing less than a coldhe reputation he covets, and, after all, sensi-le people will regard him at least as a cow-relly outlaw. The practice is provocative of viction of murder in the first degree. The

ty papers (the RECORD UNION), and if the in this case failing to determine the punish Court had made use of the language credited ment is defective and void, and n to him by the reporter, he thought that it Court has power to remedy that was good and sufficient grounds for asking a change of venue for his client. This was, he law the jury alone can fix. The defendant said, a delicate matter, but the intent of the law was that the defendant should have a fair and impartial trial, before an impartial the District Attorney. This is clearly promagistrate. Therefore he would move for a hibited by the fourteenth article of amen.

ant, and had no prejudice in the case what-ever. The report in the paper referred to "due process of law," was borrowed from the ant, and had no prejudice in the case what ever. The report in the paper referred to was correct, and his remarks were intended to impress on the minds of the Court officers to impress on the minds of the Court officers at itution, and at the time of its adoption into the advice of his counsel he objected to the examination. Officers Leavy and Ferral, John McMahon, William Johnson and Thomas Conners were sworn and gave their the Constitution, or if the Canstitution fails testimony in the case. The defendant attemption and gave their testimony in the case. The defendant attemption are to those settled modes of proceedings. Mr. Buckley addressed the Court, saying that if the defendant was held he would ask that the ball be fixed as reasonable as possible. The Court said that it appeared to his this description that the defendant was repealed by previous that it the defendant was held he would ask that the ball be fixed as reasonable as possible. The Court said that it appeared to his this defendant was repealed by previous and should be fixed as reasonable as possible. The Court said that it appeared to his this defendant was repealed by previous and should be fixed as reasonable as possible. The Court said that it appeared to his this description that the defendant was held he would ask the defendant was held he w matisfaction that the defendant was guilty as tutions prior to the adoption of the fifth charged, and held him to answer to the Summerdment. The case of Murray's Lessess commit murder, with bail fixed at \$1,500.

TER.—The amount of cash collected by the different finance committees for the Fourth persons should be indicted by a Grand Jury of July celebration was \$1,283 25. The city before they could be prosecuted for felouies, donated \$1,000, and there was collected subsequently for the purpose of employing an additional band the sum of \$195, making the total and other infamous offenses as a part of money received from the sale of manufactamount of cash received \$2,47825. The sum paid 'due process of law' before any person for music was \$672 10, of which the First Ar-could be prosecuted for such an offense. \$37 10. The printing cost \$252 75, less \$45 donated by the papers, and not accounted for grand Jury in cases like this, contains a constitutional recognition of the Grand Jury system as a part of "due process of law," according to the opinions of the framers of the Federal Constitution, and \$800, the flag \$43, decorations \$272, firing salute \$40, and carriages \$60. Hale, Sacramento; Louis Bien, D. A. Hamburger, T. McMullin, J. M. Stafford, A. F. Collins, J. D. French, C. J. Jones, D. C. Wickham, J. B. Fargo, Mrs. M. Winters, San Francisco.

During the rest, month, there have been several.

Yesterday afternoon, at 2 o'clock, J. Henry Miller manager of the Capitol Hotel, was united in mar-iage with Nellie Thorpe at the Episcopal Church in this city. The marriage ceremony was performed by the Rev. Carroll M. Davis, pastor of that church,

this city. The marriage ceremony was performed by the Rev. Carroll M. Davis, pastor of that church, and was witnessed by a large concourse of friends. The persons who stood up with the contracting parties were Miss Dottie Thorpe, sister of the bride, and Miss Nattie Todd. Professor Charles Winter presided at the organ, and, when the bridal party entered the church, played in an artistic manner the Bridal Procession from "Lohengrin," by Wagner, and after the ceremony Mendelssohn's Weddding March. The church was handsomely decorated by the florist, Mr. Ebel. A beautiful marriage bell was suspended from an arch of evergreen and flowers. A floral tribute representing a horseshoe and horn of plenty was furnished by Mr. and Mrs. W. P. Dillman. After the ceremony many invited friends repaired to the residents of the bride's parents, at 1008 Eighth street, where they were received in a royal manner. The decorations here were also beautiful, having been arranged tastefully by the bride's mother. Among the elegant and coatty prosents to the bride were the following: a jewelry casket, silver bell, silver toite case, butter dish, card receiver, cavving knife and fork, unique caske dish, pie and caske knives, card receiver, decanter caster, silver putcher and stand, satin handkeror caster, silver pitcher and stand, satin handke shiff case, floral basket, butter dish, napkin ring collet set, gold ring set with pearls and diamond gold bouquet holder, set of spoons, napkin ring bouquet holder, and shells from South Sea Island nonquet houser, and enems from south sea issues
fhe bride's dress was an elegant mauve satin
rimmed with Spanish lace; ornaments, diamond
and natural flowers. The happy couple left on the
syening train for San Francisco, and will pass their
noneymoon at the bay, Santa Cruz and Monterey.

San Francisco Produce Market.

San Francisco Produce Market.

San Francisco, July 11th-1 r. m.

Flour - The inquiry is fairly active. Best City Extra, \$5@5 50; medium grades, \$4@4 50; shipping superfine, \$3.75@4 \$9\$ bbl.

WHEAT—80 far since the holidays business has not been very lively. Exporters are only taking enough to meet immediate wants, and though not anxious to pay over \$1.55, are compelled occasionally to give \$1.57\frac{1}{2}\$, which is considered an extreme figure. The range for milling is somewhat wide, say from \$1.60 to \$1.65. For choice parcels of old the latter price is paid with little hesitation.

At the Produce Exchange call there was no general interest shown in proceedings, and only two sales were recorded, embracing 100 tons No. 1 White, seller 1883, at \$1.55, and 100 do at \$1.55\frac{1}{2}\$ btt.

White, seller 1883, at \$1.55, and 100 do at \$1.55, \$0.00.

At the Grain Exchange this afternoon there was a fair array of buyers, and as the selling inter-st was prompt in response some 1,300 tons No. 1 White changed hands in short order. The bulk of trading was for actual delivery. Details were as follows:

Seller 1883—600 tons, \$1.53: 290, \$1.52\frac{3}{4}.\$

September, actual delivery—400 tons, \$1.55\frac{1}{4}.\$

December—100 tons, \$1.55\frac{3}{4} \times ctl.

Prices at the close for actual delivery contracts were:

No. 1 White-. 1 66 Buyer the season ... Quotations of No. 2 grades at leading centers to Chicago, New York

BARLEY—Receipts are not coming forward freely and the steady tone of the market is not disturbed Feed of good quality is wanted at 924 to a moder ate extent, though holders are mostly asking highe rates. If offerings are not pressed it is not unlik that a much stronger feeling will be develop Brewing is quite firm owing to a concentration Brewing is quite firm, owing to a concentration of stock. Holders still ask as high as \$1 12\frac{1}{2}\), though we hear of sales at about \$1 08\frac{1}{3}\). A fair proportion of arrivals of this description is being put aboard the George Stetson, now loading for New York. It is said that at least 1,000 tons, and probably haif as much more, will go forward by this vessel. Whether the shipment be to order or on speculative account is not known to outsiders.

Business on call at the Produce Exchange was quite lively this morning. The market was well manipulated by a few operators, and some quick and profitable turns were made. Sales footed up 4,500 tons No. 1 feed as follows:

Seller 1883—100 tons, \$6\frac{1}{2}\)e; 200, \$6\frac{3}{2}\)e; 100, \$7\frac{1}{2}\)e; 200, \$7\frac{3}{2}\)e; 300, \$7\frac{3}{2}\)e; Byyer 1833—100 tons \$3\frac{1}{2}\)e; 200, \$7\frac{3}{2}\)e; 300, \$7\frac{3}{2}\)e; Byyer 1833—100 tons \$3\frac{1}{2}\)e; 200, \$7\frac{3}{2}\)e; 300, \$7\frac{3}{2}\)e; Byyer 1833—100 tons \$3\frac{1}{2}\)e.

300, 874c.
Buyer 1833 - 100 tons, 93½c.
Seller the season—100 tons, 864c & ctl.
Sales at the Grain Exchange of 200 tons No. I Feed, seller 1833, at 86c & ctl.
OATS—A weak tendency is evident. Stocks are slightly accumulating and holders are anxious to realize. Buyers understand the situation and refrain from making heavy purchases. We obtain a range of \$1.60@1.90 & ctl for good to choice qualities. Sales are said to have been made below our inside figure, but the quality is admitted to be somewhat poor.

what poor.

SURELY THE CAUSE, AND QUICKEN INTO is wanted here, has been heard from HEALTHY ACTION EVERY FIBER OF THE through the bark Elsinore, from Honolulu. Thomas was arrested for vulgar language, lrunkenness, threats and disturbing the

peace, just before the bark sailed. The receipts of Tax Collector Grady for he two first days of collections on account of the personal property roll were larger than on the corresponding days last year. On Monday \$790 was received, against \$200 for the corresponding period last year, and Tuesday \$1,600 was received, which is double the amount taken in on the second day of collections last year.

Considerable work is being done at Golden Gate Park. The main drive has been remacadamized and rolled, and 112,-000 trees have been set out at the western end of the Park. Some 250 acres of sand have been planted in grass, which is doing well. Nothing has been done towards re-pairing that portion of the conservatory that was destroyed by fire, the funds at the isposal of the Park Commissioners not being sufficient for that purpose.

NAVIGATION OF THE SACRAMENTO.

(From the S. F. Bulletin, July 10th.) On the 3d instant W. S. Rosecrans, Representative in Congress from the San Francisco District, forwarded the following letter to the Secretary of War:

House of Representatives, (
Washington, July 1, 1882.

Hon. Robert T. Lincoln, Secretary of War-Dear
Sir: In a conference with General Wright, Chief
Engineer, respecting his order for the application of
the appropriation of the \$250,000 to the improvement of the navigation of the Sacramento river, he
informed me that \$40,000 of it had been dedicated
to continuing the system of removing obstructions o continuing the system of removing obstructions by snags and bars heretofore approved by your Devarrant, and that the remaining \$210,000 awaited for approval of a plan for its use.

In my subsequent interview with you on the subsect, you very frankly stated that your desire was to war the more used according to the intentions. leer, you were most according to the intentions of Congress, but that representations had been made that any expenditure by damming to prevent the channel of the Sacramento from being filled by debris until hydraulic miners were stopped from dumping into the upper waters of the Feather river and other tributaries of the Sacramento would be a useless waste of money. You also referred me to a long letter recently received by you from the Mayor of Marysville, giving his views of the situation and the remedy, one feature of which was to deprecate any outlay of the appropriation until a logal decision could be reached in the United States Courts on a prayer to stop hydraulic miners, directly or indirectly, putting debris into tributary rivers.

Fully appreciating the apprehensions of the citizens of Marysville and of the farmers of the Sacramento and contiguous valleys, and believing their anxieties to prevent more material coming down from the mines are causing them to overlook the more immediate and imminent danger of the filling up of the Sacramento, the destruction of its navigation, and the devastation of consequent overflow, I verbelly called your attention to those dangers, to prevent which the committee of the House recommended and Congress made that appropriation.

Assured by you, and expressing our entire confidence that you were most desircus of conforming to the intentions of Congress in this matter, at your suggestion I had a full conference with General Wright, who fully assented to the following:

1. Thirty-three years of mining and dumping into tributaries of the Sacramento have raised their beds from twenty to eighty feet with bowleters, coarse gravelfand sand, carried a gradually rising bed of finer materials and sand, like a slowly descending avalanche, down these tributaries and into the Sacramento, where their waters have left the sands they could no longer transport, while carrying the siit and soil of the dumpings farther down, and even out into the ocean. we the money used according to the intentions ongress, but that representations had been made

silt and soil of the dumpings farther down, and even out into the ocean.

2. From Marysville, where it enters the Sacramento, to Smartsville, were it passes the lowest gorge in the mountain region, the bed of the Yuba has been thus raised, from twenty-five feet at Marysville to ninety feet at the latter place, with a coarse sand and gravel which fill up the old channel and spread over the adjacent banks, reaching out from one to several thousand feet wide.

3. Over this vast descending avalanche, at ordinary styges, the water of the Yuba, unless prevented, will wander at its own sweet will, cutting and channeling the mass, and carry what it excavates directly into the Sacramento, already nearly filled from Marysville downward for many miles, and preparing the way for the winter's floods to load up from the same mass all their transporting power can carry.

ower can carry.

4. Thus, were mining in the mountains immedi-4. Thus, were mining in the mountains immediately and absolutely to cease, the destruction of the avigation of the Sacramento below Marysville and the perils to the agricultural lands consequent on illing up its waterway would be imminent and invitable unless something is promptly done to stop the debris now in the Yuba and Bear river channels below the foothills from being in this manner carried into it. It was expressly for this purpose that Congress

ade the appropriation, as it was my own statement to the committee on this which decided the appro-

combated by selentific medical measures, viz. Saloy to the country of the committee on this which decided the appropriation of the searamento waterway as indicated, can be prevented by a proper system of damming the Yuba and Bear rivers below the footbills, by which their now expanded bods will be divided into pools, retaining their present debris, and compelling the waters of moderate stages to spread out, so that they cannot crode, and giving a wide, shallow waterway for the floods.

7. These propositions are amply established by the information and reports now in the office of the Chief Regimeer, and prove that the prompt application of the money appropriated for that purpose is demanded by the interests of arriculture, and the navigation of the money appropriated for that purpose is demanded by the interests of arriculture, and the navigation of the river from Margyvilla, which charged \$5, while the boats only charged \$3 per ton counties \$2 per ton on 300,000 tons of wheat, or \$720,000, from the grab of the railway, which charged \$5, while the boats only charged \$3 per ton 1 may add that, even were mixing stopped, there ought to be in the gorge above Smartsville, on the Yuba, and in the first gorge on Bear river, heavy rock fills for retaining dams to stop what is already in the channels of these streams of coarse material above these paints from being brought down into the valley beds by the floods of winter.

With these precautions, even were invitantile mining to continue, titled, it any, except the fine silter work of the walley beds by the floods of winter.

Trusting that you will find ample reasons for ordering the prompt application of the means at your disposition to save out agriculture and navigation from the danger which impends with the approaching winter, Iremain very respectfully yours, while pursuing a vocation shericules of the second of all KIDNSY AND BLADDER COU.

Swift's Specific has cured me of Scrofula,

Swift's Specific has cured me of Scrofula, which is hereditary in my family. I have suffered with it for many years, and have tried a great many physicians and all sorts of treatment, but to no purpose; and when I began to take Swift's Specific I was in a horrible condition; but thanks to this great remedy, I am rid of the disease. There is no loubt that it is the greatest medicine in existence, and I hope any who doubt will write to me.

E. C. HAWES, JR.,

Clarksville, Ga.

After suffering twenty-five years with a painful Dry Tetter, and trying many physicians, I was at last relieved by the use of Swift's Specific, and I cheerfully commend it to all similarly afflicted.

PRICE

MISCELLANEOUS.

It has been the aim of the ablest stove-makers of the present century to invent something in the shape of a stove or range so perfect in its construction and so simple in its working capacity, that the kitchen which it so prominently occupies could be made a place where its duties could be done with pleasure, instead of what it now is and has been, simply a place of drudgery for those whose duties compelled them to be there. The question is now asked, has there been such a stove or range made up to the present time, one that will fully meet all these requirements. We answer, most emphatically, yes. We claim and will prove that the "GARLAND RANGE" is possessed of all these qualities.

FIRST-The "GARLAND RANGE" does not heat up the kitchen like an ordinary stove or range. Second-It will do twice the cooking of the common stoves or ranges of the present day with about half

GARLAND

OWN

Third-It is the only range made with the long needed Patent Revolving Hearth, whereby one can broil a chicken on it that will taste with as fine a relish as did those broiled by our grandmothers before the old open fire-place.

Fourth-It is the only range with the Double Oven Plate that will never crack. Fifth-It has the heaviest castings of any range yet

Sixth-The "GARLAND" has the New Drop Sheet, something that has been long needed, and must be seen to be appreciated. Seventh -- It is one of the most beautiful ranges ever

Eighth and last-It does not cost a dollar more than the thou and and one common stoves and ranges palmed off on the public as the latest patents. In conclusion we say to our customers and the public generally, that when in want of a first-class range ask for the "GARLAND," and take no other, and if your dealer refuses to do this, send direct to
